

GLP

Stainless Steel Floor Scale

The GLP is a below ground pit mounted stainless steel scale that is designed and manufactured by MWS.

The GLP's main feature is a gas strut assisted top deck making routine cleansing in high risk areas easier. It also provides safer loading by operators due to being flush with the existing floor structure.

The GLP is fitted with IP69K load cells and junction box as standard, guaranteeing that the GLP is a truly waterproof floor scale even when washed down with a high pressure / high temperature jet wash.

Application

- IBC / Pallet Weighing
- Hazardous Area Weighing

Features

- Much improved production area hygiene with lift up plate
- Decreased risk of bug traps
- IP69K Load Cells & Junction Box
- Hygienic bead blast finish
- 304 stainless steel materials
- Lifetime warranty on the structural integrity

Options

- ATEX Load Cells & IS Junction Box
- Trade Approval to 3000d or 6000d (3000kg)
- Custom Sizes for pre-existing pits
- 316L Stainless Steel

Standard Features

Optional Extras

Specifications

Model	Platform Size	Platform Height	Capacity	Load Cell
GLP75	750 x 750 mm	120 mm	300 – 1,000 kg	Flintec SB14
GLP1010	1000 x 1000 mm	120 mm	300 – 1,000 kg	Flintec SB14
GLP1212	1250 x 1250 mm	120 mm	300 – 1,500 kg	Flintec SB14
GLP1512	1500 x 1250 mm	120 mm	300 – 3,000 kg	Flintec SB14
GLP1515	1500 x 1500 mm	120 mm	300 – 3,000 kg	Flintec SB14
GLP/SP	Bespoke Sizes	TBC	300 – 6,000 kg	Flintec SB14
