

 PRODUCT INFO

LPS

Stainless Floor Scales

The LPS is a family of platforms that cover a range of stainless steel floor scales for use in food, pharmaceutical and chemical environments. The LPS range is available in a combination of sizes and capacities suitable for a majority of applications.

MWS manufactures these products to order so they can be designed with specific applications in mind. The LPS range has been incorporated into vessels, special models including integrated gutters for chemical run-offs, and scales for use in extreme temperature areas, nuclear waste processing industries, plus many more applications.
