

Product description:

Module Terminal E2R Formulas is a software version of indicator PUE 5 enabling weighing the ingredients of a specific formula according to a production order on a single or multiple weighing platforms, connected to an indicator series PUE 5. The software also provides defining tolerance limits for a specific ingredient and limited operation on E2R SYSTEM files from the level of PUE 5 indicator.

The E2R Formulas software is directed to customers in various industrial branches, like: building, food-processing, sugar, chemical, pharmaceutical and engineering, and in any other application requiring ingredients filling or weighing assortments by a specific formula.

Designed for operation with scales:

- ▶ Based on indicator PUE 5

Functions:

- ▶ Operation on E2R SYSTEM files – adding, deleting and editing of records in files of:
 - assortments,
 - operators,
 - contractors,
 - stocks,
 - formulas,
 - tares (packages),
- ▶ Monitoring of weighing records carried out on scales equipped with indicator series PUE 5;
- ▶ Formula making process based on Production Orders;
- ▶ Determination of sample size for each ingredient of a formula;
- ▶ Determination of tolerance limits for weighed ingredient;
- ▶ Weighing a formula to a pre-defined target mass;
- ▶ Operation on Production Orders;
- ▶ Defining access levels for each user of the system;
- ▶ Carrying out Production Orders with manufactured units;
- ▶ Weighing remaining from each manufactured unit;
- ▶ Weighing ingredients in multiple processes;
- ▶ Weighing each ingredient of a formula on a separate scale / weighing platform;
- ▶ Determining batch number after each weighing process,
- ▶ Formula making process with dosing mode;
- ▶ Production Order realization on multiple scales equipped with PUE 5 indicator;
- ▶ Multiple realization of the same formula;
- ▶ Operation on Formulas and Orders files;
- ▶ Realization of a Production Order divided into phases;
- ▶ Stock management operations;
- ▶ Holding up the process of Formula and Production Order realization;
- ▶ Cooperation with receipt and label printers;
- ▶ Labeling directly from the level of PUE 5 indicator;
- ▶ New, user friendly application look.

* NOTE! RADWAG does not sell software 'in box'. Boxes presented on our Web-site are of virtual characteristic only, and they are not accessible with purchased software.
