

FLTS

Portable Floor Scale

The FLTS is a range of portable floor scales designed and manufactured in Leicester by MWS. It features fork guides making the FLTS easy and safe to move using a forklift truck.

The FLTS is manufactured in 304 grade stainless steel (316L available upon request) and is suitable for use in areas where there is an abundance of moisture or chemicals. It is fitted with IP67 load cells and junction box as standard making the FLTS a truly waterproof floor scale built for the rigours of the food and chemical industry.

A glass bead blast top and bottom is used to finish which is hygienic for a majority of applications. Upon request a grained or electro polish finish can be added to improve the surface finish further.

Application

- IBC / Pallet Weighing
- Hazardous Area Weighing

Features

- The FLTS is a four load cell scale with forklift truck guides to enable fast and safe relocation of the system
- Low profile design enabling operators to weigh products easily
- ATEX Model features Anti Static Castors, ATEX Rated Load Cells & Intrinsically Safe ATEX Rated Junction Box
- Lower cost of ownership due to long-term lifespan of the product and fitted components
- Lifetime warranty on the structural integrity of the fabrication
- 5 year guarantee on other components

Standard Features

Specifications
