

DTSP

Portable Drive Through Scales

The DTSP range of drive through scales is designed and manufactured in Leicester by MWS. Its main feature is a low profile weighing deck with fold down castors for easier moving around site. The terminal pillar doubles up as a handle to make the DTSP easy to move.

The DTSP design ensures the unit is strong enough to cope with loads up to 1500kg yet remains less than 50mm high and is light enough to move.

The DTSP is manufactured in 304 grade stainless steel (316L available upon request) and is suitable for use in areas where there is an abundance of moisture. It is fitted with IP68 load cells and junction box as standard, making the DTSP a truly waterproof floor scale built for the rigours of the food and chemical industry.

Application

- Portable Weighing
- IBC / Barrel Weighing

Benefits

- Safer and easier operator use with low loading deck
- Designed for food area hygiene and safety
- Lower overall cost of ownership
- Manufactured in the UK by MWS Ltd using quality components
- Four heavy duty castors with locking mechanism

Options

- Indicator Brackets for all major manufacturers
- Four rubber levelling feet with anti slip design
- Heavy duty design eliminating flex under load
- Variety of load cell options, from ATEX to IP69K

Standard Features

Optional Extras

Specifications

Model	Size	Height	Capacity	Load Cell
DTSP08	800 x 800 mm	40 mm	300 – 600 kg	Flintec SLB
DTSP10	1000 x 1000 mm	40 mm	300 – 600 kg	Flintec SLB
DTSP12	1250 x 1000 mm	50 mm	300 – 1500 kg	Flintec SLB
DTSP15	1500 x 1500mm	50 mm	300 – 1500 kg	Flintec SLB
